

1 We claim:

- 2 1. A chemical composition for application to the skin comprising a mixture of at
3 least 50% of the processed Dead Sea mineral particles in a continuous all-
4 natural carrier medium wherein said Dead Sea mineral particles do not rapidly
5 settle out of said carrier medium.
- 6 2. The chemical composition for application to the skin of Claim 1 wherein said
7 continuous all-natural carrier medium comprises palm oil.
- 8 3. The chemical composition for application to the skin of Claim 2 wherein said
9 continuous all-natural carrier medium comprises soybean oil.
- 10 4. The chemical composition for application to the skin of Claim 3 wherein said
11 continuous all-natural carrier medium comprises olive oil.
- 12 5. The chemical composition for application to the skin of Claim 4 wherein said
13 continuous all-natural carrier medium comprises jojoba oil.
- 14 6. The chemical composition for application to the skin of Claim 5 wherein said
15 continuous all-natural carrier medium comprises beeswax.
- 16 7. The chemical composition for application to the skin of Claim 6 wherein said
17 continuous all-natural carrier medium comprises jojoba wax.
- 18 8. The chemical composition for application to the skin of Claim 7 wherein said
19 continuous all-natural carrier medium comprises cashew husk oil ethoxylate.
- 20 9. The chemical composition for application to the skin of Claim 8 wherein said
21 continuous all-natural carrier medium comprises coconut oil.

- 1 10. The chemical composition for application to the skin of Claim 9 further
2 comprising Vitamin E.
- 3 11. The chemical composition for application to the skin of Claim 1 further
4 comprising an essential oil blend.
- 5 12. The chemical composition for application to the skin of Claim 11 wherein said
6 essential oil blend comprises lavender.
- 7 13. The chemical composition for application to the skin of Claim 12 wherein said
8 essential oil blend comprises rosewood.
- 9 14. The chemical composition for application to the skin of Claim 13 wherein said
10 essential oil blend comprises chamomile.
- 11 15. The chemical composition for application to the skin of Claim 14 wherein said
12 essential oil blend comprises calendula.
- 13 16. Processed Dead Sea minerals, 100 % of which comprising a granularity of less
14 than 10 mesh and 100% less than 1.0mm.
